Profile

Akshat Mishra joined CUTS CITEE as Senior Research Associate in March 2017. His responsibilities include assisting in grant proposal writings, preparations of research reports, papers, etc. along with overall project management.

Experience & Skills

Contributory Writer, Offprint India (April 2016-Feb 2017):

Wrote policy based articles on issues related to environmental protection, sustainable development, climate change, law etc.

Project Coordinator, Himachal Pradesh State Electricity Board, Subdivision Bhuntar (Nov 2015-July 2016):

Worked closely with the Assistant Electrical Engineer and Energy Consultant on preparing a report assessing hydropower development and EIA in Himachal Pradesh under 'Himachal Pradesh Clean Energy Development Investment Program', funded by Asian Development Bank.

Research Assistant, CUTS International (Aug 2013-Aug 2015):

Worked in CUTS CITEE under Trade and Sustainable Development programme area. Assisted in research activities and overall project management for various projects.

Supplementary Information

Akshat is a post graduate in economics and development studies with further specialization in environmental law, policy and development.

He has extensive research experience in the domains of water, energy and food security in South Asian region, specifically India. He specializes in grant proposal writing and policy analysis. He has a sound experience in conducting primary research at the grassroots using qualitative and quantitative data analysis tools.

Being a certified Level 1 partnership broker, he also specializes in CSO partnership building. As a result he has established contacts with various development professionals in South Asia from civil society to international aid institutions, academicians and the government sector.

He has also published several research papers and articles in journals, newspapers and other platforms.
