### **1. Activities carried out by CUTS in the month of December, 2014**

1.4 A briefing paper titled “**India-Bangladesh Cooperation in Rice Seeds: Need for Structural Changes**” has been published.

*The paper reveals that lack of availability of good quality rice seeds at the local level is inducing farmers to opt for seeds informally traded between Bangladesh and India. What is more, farmers in India find some of the Bangladeshi variety seeds more suitable and adaptable to local conditions. This also holds true for farmers in Bangladesh. It recommends measures to formalise rice seeds trade and knowledge sharing between two countries.*
